

## Suzuki DF2.5

### Overview

Weighing only 13.5kg, our DF2.5 is the lightest 2.5hp four stroke on the market – it is so light that you'll forget that it's a four stroke.

There are a range of features that you wouldn't expect on such a small outboard, including F-N Gear shift, water-cooling and a 1 litre fuel tank that will last you for hours.

With a big carrying handle, the engine is easily lifted on and off a tender or pontoon while the 4 tilt positions ensure that you can set the engine to your boat's requirements.

To give you even more flexibility when choosing your outboard, the DF2.5 is now also available as a long shaft model.
