

Suzuki Inazuma GW250Z

Overview

Suzuki Inazuma 250 offers agility, power and comfort in a pretty compact package. This sporty-naked features an aggressive design language that inspires agility and speed. We especially like the sharp-cut lines of the fairing, the sculpted fuel tank and the tasty headlight. Not to mention the comfortable handlebar, the perfectly placed foot pegs and the spacious seat which help you get a fairly relaxed riding experience.

The Suzuki Inazuma 250's centre piece is a 248cc, four stroke, liquid-cooled, SOHC, fuel injected engine especially tuned to offer a perfect balance between power and efficiency rewarding you with an average fuel consumption of over 85 mpg. The engine is fed by a large capacity fuel tank (13.3litres) that offers a decent riding range. Inazuma is available in red and black colour.

Specifications

Dimensions and Weights

Overall length	2145mm (84.4in)
Overall width	760mm (29.9in)
Overall height	1075mm (42.3in)
Wheelbase	1430mm (56.3in)
Seat height	780mm (30.7in)
Kerb Mass	183.0kg (403.4lbs)
Fuel capacity	13.3litres (2.9 UK gallons)
Ground clearance	165mm (6.5in)

Engine

Engine capacity	248cc
Engine	Four-stroke, liquid-cooled, SOHC
Bore	53.5×55.2
Compression ratio	11.5:1
Lubrication	Wet sump
Fuel system	Fuel injection
Transmission	6-speed constant mesh

Drive	Chain
MPG	85.87
Power	18.00kW @ 8500rpm (24.00hp) [†]
Torque	22.00N.m @ 6500rpm (16.00lb.ft) [†]

Chassis

Front suspension	Telescopic, coil spring, oil damped
Rear suspension	Swingarm type, coil spring, oil damped
Front brakes	Disc
Rear brakes	Disc
Front tyres	110/80-17 M/C 57H, tubeless
Rear tyres	140/70-17 M/C 66H, tubeless
